Harton Heights.

A short visit this week to this new and prosperous suburb, shows a constant growth and improvement. No enterprise of the kind has met with such remarkable success as this in the past few months. It seems to have attracted the people from the surrounding country, who have come here before, because it enables them to pay the amounts they have always paid for rents toward the purchase of their homes. It is to be hoped that the necessity of withdrawing their capital from their business to invest in their homes. It gives salaried men an opportunity of paying for their homes from their monthly incomes, instead of waiting for a long term of years before they could afford to buy, or purchase on the market. We have repeatedly called attention to the neatness of this property to business, to its accessibility. In point of fact, it is not far from the center of the city, than the background college. The new water tower, and the water pipe, goes away with the hill, except the Second street one. It has sixty foot lots, on forty foot avenues; electric lights, mail delivery twice each day, plenty of good water and no shafts.

MONTHLY saving of ten dollars per month, or more, can be invested in stock in the Homestead Land Company, and the stock afterwards converted into lots, if desired by the stockholders, other companies comprising the H. W. Williams Wirt Henry, president; John H. Montague, treasurer; Henry L. Staples, general manager. Office 1103 Main street. See advertisement in another column.

Asthmatic troubles, pleurisy, pains and inflamed throats, are overcome and healed by Dr. D. Jayne's Expectorant—for fifty years an approved stand-by for all coughs and colds.

For ladies' phantoms, carts, &c., or any vehicle to be built to order or repaired, see David A. Annie.

The property of the Homestead Land Company is rapidly increasing in value, owing to the great improvements going on in Manchester. If you have not been over there for several weeks, go over and take a look.

A fine line of Surry carriages can be had at R. H. Boshier's Sons.

R. H. BOSHIER'S SONS have the largest and best stock of Phantoms and side-bar buggies in the city.

Mr. David A. Annie makes a specialty of the manufacture of ladies' phantoms. Nos. 1, 2 and 3 Teal street.

R. H. BOSHIER'S SONS' vehicles are the finest in the city.
